<p><b>Railway Reservation System</b><br>
```

The railway reservation system facilitates the passengers to enquiry about the trains available on the basis of source and destination, booking and cancellation of tickets, enquiry about the status of the booked ticket, etc. The aim of case study is to design and develop a data base maintaining records of different trains, train status and passengers.

```
<p><b>Hospital management system</b><br>
```

Main objectives of a Hospital Management System are: Design a system for better patient care, Reduce hospital operating costs, Provide MIS (Management Information System) report on demand to management for better decision making.

Hospital management System handles activities of major departments in a hospital like:

Front Office/OPD Management, Patient management (scheduling, registration and long-term care), Patient care management and departmental modules (radiology, pharmacy and pathology labs), Investigative Labs, Billing, Medical Stores, Financial Accounting (billing, insurance processing, materials management, accounts payable/receivable, payroll and general ledger) and Payroll

PROJECT

Railway Reservation System
The railway reservation system facilitates the passengers to enquiry about the trains available on the basis of source and destination, booking and cancellation of tickets, enquiry about the status of the booked ticket, etc. The aim of case study is to design and develop a data base maintaining records of different trains, train status and passengers.

Hospital management system
Main objectives of a Hospital Management System are: Design a system for better patient care, Reduce hospital operating costs, Provide MIS (Management Information System) report on demand to management for better decision making. Hospital management System handles activities of major departments in a hospital like: Front Office/OPD Management, Patient management (scheduling, registration and long-term care), Patient care management and departmental modules (radiology, pharmacy and pathology labs), Investigative Labs, Billing, Medical Stores, Financial Accounting (billing,
